Relevant Experience

Software Developer @ Art + Code

June 2022 - Present | Montreal

- ▶ Worked on improving the professional appearance of the company's website and two client websites, which were created using WordPress.
- ▶ Completed 5 to 6 projects using Flutter, demonstrating my expertise in this technology.
- ▶ Successfully analyzed user requirements and developed client-satisfying applications, exemplified by my work on Multiple projects.
- ▶ Experience designing and implementing efficient software programs and testing and debugging them to ensure their quality. These skills have allowed me to deliver error-free software to clients.

Frontend Developer Intern @ Uplers Solutions Priv. Li.

July 2020 - August 2021 | India

- ▶ Designed and developed email templates for a multinational corporation, showcasing my ability to create visually appealing and effective marketing materials.
- ▶ Developed landing pages for a multinational corporation, demonstrating my expertise in creating high-converting web pages for marketing campaigns.
- ▶ Developed and maintained user-facing web applications using HTML, CSS, and JavaScript.
- ▶ Worked with back-end developers to integrate front-end code with server-side logic.
- ▶ Created responsive and mobile-friendly layouts using CSS frameworks such as Bootstrap.
- ▶ Collaborated with designers to implement and maintain the visual style of web applications.

Web Developer @ HN Techno

Jun 2018 - August 2019 | India

- ▶ Used Java to develop and maintain software applications
- ▶ Developed and maintained code for in-house and client websites primarily using HTML, CSS, Sass, JavaScript, and JQuery
- ▶ Conducted code reviews to ensure code quality and adherence to best practices
- ▶ Debugged and fixed issues to improve software reliability
- ▶ Wrote and maintained technical documentation
